

We ham radio bands are already beset with "birdies" cluttering our bands. They are all no doubt perfectly legal under Part 15. But now with your broad band and telephone BPL projects, it's apparently perfectly OK with all you Republican political appointees to finish off HF communications once and for all. Ham radio provides a cadre of technically trained citizens for emergencies and military recruits. But of course in your world enriching greedy old men is much more important than any other consideration. I always vote and will remember you at election
